

I am writing to urge you to reject the NAB's petition 04-160 regarding XM radio's ability to provide XM Instant Traffic & Weather and other programming. This amounts to nothing more than the NAB attempting to legislate away their competition, i.e. XM's ability to provide the content and services that I can't get through the public airwaves. I PAY for this service for my car and my home, therefore the NAB has no right to interfere with my ability to do so, nor is it up to them to tell me what I can hear and who from. Thank you for your careful consideration.
